

## Printing and Transfer Instructions

Recommended for **Dark** colored Fabrics only

---

### WHY IS THIS PRODUCT UNIQUE?

- Soft feel
- Transferred images appear “natural”
- Transferred images do not crack
- Highly stretchable opaque
- No special laundry instructions are necessary

### IMAGE PRINTING

**DO NOT OVERSATURATE WITH INKS. IT WILL NOT ENHANCE TRANSFER QUALITY. A LITTLE INK GOES A LONG WAY.**

- Design or select image on the computer.
- Print image on the coated side of transfer paper
- Make sure your image is **NOT** mirrored or flipped when printing
- Allow the printed image to dry before transferring

### HEAT TRANSFER APPLICATION

#### Commercial Heat Press

- Set heat press at 375- 400 degrees Fahrenheit and allow to come to set point
- Set press for medium pressure.
- Pre-heat garment for a few seconds to remove moisture or wrinkles.
- Starting from the edge, **peel off** the Image from the support paper
- Place transfer on the fabric with the **Image facing up**
- Cover the entire Image area with the enclosed parchment paper and press for 25- 30 seconds
- Remove the parchment paper hot or cold.

#### Home Hand Iron

- It is best to use a smooth, hard, non-porous surface.
- Preheat the iron on the highest setting (**Cotton/Linen**). Do not add water to the iron
- Allow the iron to pre-heat for 5mins.
- Place a pillowcase on the ironing surface. Iron to remove wrinkles.
- Pre- iron the fabric to remove any moisture and wrinkles
- Starting from the edge, **peel off** the Image from the support paper
- Place transfer on the fabric with the **Image facing up**
